

COMPANY PROFILE

2026

Building Expertise. Delivering Excellence.

ABOUT STC

Building Expertise. Delivering Excellence.

Established in 2018, STC Specialized Trading & Construction Company has grown into a specialized company in building chemicals, construction, and finishing solutions.

Through a combination of technical expertise, qualified professionals, modern equipment, and strong partnerships with leading manufacturers, STC delivers reliable supply and execution solutions for a wide range of construction applications.

From building chemicals and industrial flooring to waterproofing, concrete repair, structural joints, swimming pools, facades, and finishing works, STC provides integrated solutions designed to meet the highest standards of quality, performance, and efficiency.

Our Story

From Experience to Excellence

Since 2018, STC has been on a continuous journey of growth and development.

What started with a clear vision to provide reliable construction solutions has evolved into a specialized company combining trading, technical support, and professional execution under one roof.

Over the years, we have expanded our expertise, strengthened our partnerships, developed our technical capabilities, and contributed to projects across different sectors.

Today, STC continues to move forward with the same commitment to quality, but with greater experience, stronger capabilities, and a broader vision for the future.

The background is a monochromatic blue image of a construction site. On the left, a tall tower crane stands next to a building under construction, which is heavily encased in scaffolding. To the right, several modern, glass-clad skyscrapers rise into the sky. The entire scene is overlaid with a faint, white grid pattern, suggesting architectural plans or a digital overlay.

Our Journey

2015

The Beginning

STC was established with a vision to deliver specialized construction solutions.

2016

Building Our Expertise

Developing our technical knowledge and execution capabilities.

2017

Growing Capabilities

Strengthening our team, experience, and industry connections.

2018

Expanding Services
